WIRING

WS4-2D
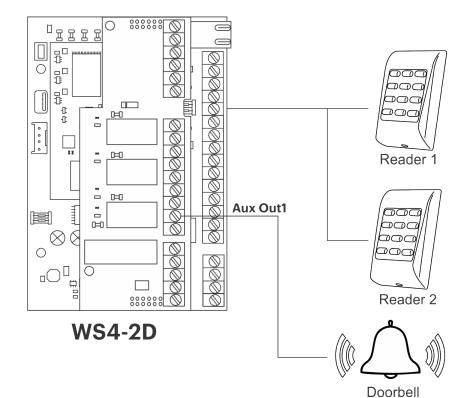

Connect a doorbell on the Auxiliary Output 1.
Use keypads for activating the doorbell.
Press key A and the aux output 1 will be activated for 1 second, which will ring the bell for 1 second.

SETTINGS IN THE SOFTWARE

Go to **Settings/System** options and for Aux Out 1 select "**Bell**".

After this selection, each time you press A, the Aux Output 1 will be activated for 1 second.
